Vaccines Required for School Attendance, Preschool -12th Grade

PublicHealth

VACCINE	PRESCHOOL ¹	KINDERGARTEN - 12 TH GRADE			
Haemophilus influenza Type B (Hib)	1 dose (given on or after the 1 st birthday, unless child is older than 59 months) ²				
Diphtheria, Tetanus, and Pertussis (DTaP, Tdap)	4 doses				
Polio (IPV or OPV)	3 doses	3 doses (one dose must be given on or after 4 th birthday) ³			
Measles, Mumps, and Rubella (MMR)	1 dose (dose must be given on or after 1 st birthday)	2 doses (first dose must be given on or after 1 st birthday, and spacing between doses is 4 weeks)			
Varicella "chickenpox" (Var)	1 dose (dose must be given on or after 1 st birthday) ⁶	2 doses (first dose must be given on or after 1 st birthday, spacing between doses is 12 weeks for children under 13 years, and 4 weeks for those older than 13 years) ^{5,6}			

¹Per MCA 20-5-402, a preschool is defined as a facility that provides, on a regular basis and as its primary purpose, educational instruction designed for children 5 years of age or younger and that: (a) serves no child under 5 years of age for more than 3 hours a day; and (b) serves no child 5 years of age for more than 6 hours a day.

²Hib vaccine is not recommended for children older than 59 months.

³When following the ACIP schedule, children will have at least 5 doses of DTaP and 4 doses of polio vaccine.

⁴A pupil 7 years or older who has not completed the DTaP requirement must receive additional doses of Tdap vaccine or Td vaccine to become current in accordance with the Advisory Committee on Immunization Practice (ACIP) recommendations per ARM 37.114.705.

⁵While it is not recommended, if a child younger than 13 years receives their second dose of varicella at an interval of 4 weeks or longer, the dose does not need to be repeated.

⁶As of October 1, 2015 pupils are required to have varicella vaccine and all pupils 7th-12th grade must have a Tdap vaccine.

Note: A four-day grace period may apply, as appropriate, per the ACIP recommendations.

September 2018

STATE OF MONTANA— CHILD CARE FACILITY/SCHOOL CERTIFICATE OF IMMUNIZATION

Complete immunization requirements and penalties for those who fail to meet the requirements are referenced in Section V. This form is required for ALL persons attending school or child care. See the reverse side for information about EXEMPTIONS and INSTRUCTIONS.

Signed:		Signed:		
c	(Health Department/Health Care Provider) Date	(Sch	ool or Child Care Official and Title)	Date

SECTION III

INSTRUCTIONS

Health Department or Physician

- 1. For medical exemption purposes, a physician is a person licensed to practice medicine in any jurisdiction of the U.S. or Canada. This does not include chiropractic or naturopathic doctors, nurse practitioners or physician assistants.
- 2 In Section II, please include vaccine doses with month, day and year for each administered dose. Immunization dates, as specified in the administrative rules, are necessary. Please sign and date the form.
- 3. If the child is completing a vaccine series, a Conditional Attendance form can be used. The physician or health department will determine the date of each dose to be administered and put the schedule on the Conditional Attendance form. Please sign the Conditional Attendance form, and return to the school or child care facility. 4.
- Immunization forms can be obtained directly from the local health department or the Montana Immunization Program at immmunization.mt.gov.

School and Child Care Official

- 1. Prior to attending, all students and child care facility attendees must have either a) the required immunizations and documentation or b) have completed the appropriate exemption or conditional attendance documentation. This includes transfer students.
- 2 Documentation must meet the criteria of the Administrative Rules of Montana. This is limited to other school health records and certain documents from health departments and physicians.
- 3 Transferring information from supporting documentation to this form must be done by a school or child care official. The school or child care official must then sign and date the form (Section II) and attach the supporting documentation.
- Conditional Attendance form, once completed and attached to this document, allows attendance so long as immunization continues as scheduled. 4.
- School Transfer Students.
- There is no transfer period allowed. Transfer students must provide adequate documentation of immunization PRIOR to attending school.
 - a) Transferring In: Students who transfer into Montana from out of state must have their immunization information recorded on this form (See number 2 above regarding acceptable documentation.) Students must meet Montana immunization requirements.
 - b) Transferring Out: If students transfer out of your school, a copy of this record should be maintained for one year following the transfer. The Montana law requires schools to forward the original Certificate of Immunization to the school to which students transfer.
 - c) Homeless Students: All homeless students must be immediately enrolled in a Montana school to ensure compliance with the McKinney-Vento Act. Students should be assigned a liaison who can assist them in obtaining either appropriate documentation of immunization or in obtaining the required immunizations.

Parent

- Montana law requires immunization information be recorded on this document for persons to attend Montana schools, preschools and child care facilities. 1.
- ONLY school, child care and health officials can complete this form. School and child care officials need documentation from physicians or health departments as 2 described by the Administrative Rules of Montana (examples: A completed Montana Certificate of Immunization; A signed Immunization record card). It is the parent's responsibility to provide these documents to the school or child care facility.
- 3. Religious exemption and conditional attendance may be used in accordance with the Immunization Law and Administrative rules. The Religious Exemption may be used in school settings and must be renewed annually. Religious exemption for child care only applies to Haemophilus influenzae type b (Hib), and must be renewed annually.
- 4. Montana law prohibits children from attending any Montana school or child care facility prior to meeting immunization requirements.
- If your child transfers to another Montana school, a copy of this completed form will allow your child to enter that school. However, the original Certificate of 5. Immunization must be provided to the new school within 30 days of transfer in order for the child to attend.

SECTION IV

EXEMPTIONS

Medical Exemption Statement

Physician: Please mark the contraindications/precautions that apply to this patient, then sign and date the back of the form. The signed Medical Exemption Statement verifying true contraindications/precautions is submitted to and accepted by schools, childcare facilities, and other agencies that require proof of immunization. For medical exemptions for conditions not listed below, please note the vaccine(s) that is contraindicated and a description of the medical condition in the space provided at the end of the form. The State Medical Officer may request to review medical exemptions.

Date of review:

Medical contraindications for immunizations are determined by the most recent General Recommendations of the Advisory Committee on Immunization Practices (ACIP), U.S. Department of Health and Human Services, published in the Centers for Disease Control and Prevention's publication, the Morbidity and Mortality Weekly Report.

A contraindication is a condition in a recipient that increases the risk for a serious adverse reaction. A vaccine will not be administered when a contraindication exists.

A precaution is a condition in a recipient that might increase the risk for a serious adverse reaction or that might compromise the ability of the vaccine to produce immunity. Under normal conditions, vaccinations should be deferred when a precaution is present.

Contraindications and Precautions

Vaccine	
Hepatitis B (not required for school attendance)	Contraindications Serious allergic reaction (e.g., anaphylaxis) after a previous vaccine dose or vaccine component Precautions Moderate or severe acute illness with or without fever
DTaP	Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component Encephalopathy within 7 days after receiving previous dose of DTP or DTaP Precautions
DT, Td	 Progressive neurologic disorder, including infantile spasms, uncontrolled epilepsy, progressive encephalopathy; defer DTaP until neurological status has clarified and stabilized Fever ≥40.5°C (105°F) within 48 hours after vaccination with previous dose of DTP or DTaP
Tdap	 Guillain-Barre' syndrome ≤6 weeks after a previous dose of tetanus toxoid-containing vaccine Seizure ≤3 days after vaccination with previous dose of DTP or DTaP Persistent, inconsolable crying lasting ≥3 hours within 48 hours after vaccination with previous dose of DTP/ DTaP History of arthus-type hypersensitivity reactions after a previous dose of tetanus toxoid- containing vaccine
IPV	Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component Precautions
	Pregnancy Moderate or severe acute illness with or without fever

Vaccine	
PCV (not required for school attendance)	 Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose (of PCV7, PCV13, or any diphtheria toxoidcontain vaccine) or to a component of a vaccine (PCV7, PCV13, or any diphtheria toxoid-containing vaccine) Precautions Moderate or severe acute illness with or without fever
Hib	Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component Age <6 weeks
MMR	 Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component Known severe immunodeficiency (e.g., hematologic and solid tumors, chemotherapy, congenital immunodeficiency, long-term immunosuppressive therapy, or patients with HIV infection who are severely immunocompromised) Pregnancy Precautions
	 Recent (<11 months) receipt of antibody-containing blood product (specific interval depends on the product) History of thrombocytopenia or thrombocytopenic purpura Need for tuberculin skin testing Moderate or severe acute illness with or without fever
Varicella	Contraindications Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a vaccine component Known severe immunodeficiency (e.g., hematologic and solid tumors, chemotherapy, congenital immunodeficiency, long-term immunosuppressive therapy, or patients with HIV infection who are severely immunocompromised) Pregnancy Precautions Recent (<11 months) receipt of antibody-containing blood products (interval depends on product)
	nditions not listed, please note the vaccine(s) that is contraindicated and a description of the condition:

A physician (M.D. or D.O) licensed to practice medicine must complete and sign this form.
